## PROFESSIONAL SUMMARY

A highly skilled Front-End Developer and UI/UX Designer with 2 years of experience in designing and developing responsive, user-centered web applications. Proficient in HTML, CSS, JavaScript, and various front-end frameworks, with a strong eye for detail and a passion for creating intuitive user interfaces. Proven ability to collaborate with cross-functional teams to deliver high-quality projects on time.

## EDUCATION / CERTIFICATIONS

### **BSc (hons) Information Technology and Business Information Systems**

Middlesex University

- First Class Honors

### **Advanced Diploma in Software Engineering**

Aptech Education

- Distinction

## TECHNICAL SKILLS

Figma, MS Office, API, Restful API, Json, HTML/CSS, AJAX, Agile DevOps, Jira, Jenkins, TravisCL, Github, Google Cloud, Responsive Web Design (RWD), React, Angular, PHP, Azure DevOps, Firebase, Junit, Kanban, XP, Waterfall, API Integration, UI/UX Design, Sass, Bootstrap, Tailwind CSS, MVP, MVVM, Jetpack Compose, Software Architectural, Patterns, XML, SDLC, Project Lifecycle, SQL, Tableau, Weka, Power BI.

## SOFT SKILLS

- Expertise in JavaScript
- Strong knowledge of RESTFU APIs, JSON, and third party libraries
- Experience with Version Control Systems (Git)
- Solid understanding of UI/UX principles and material Design
- Agile and Scrum methodologies
- Excellent Problem Solving Skills
- Effective communication and teamwork abilities.

## PROJECTS

### Chatbot Web Application – Chatbot

- Developed a JavaScript - based Chabot web app using OpenAI API key integration, enabling dynamic and responsive conversations. Highlighted proficiency in web development, API usage, and natural language processing.

### Web Application – Online Translator

- Developed an advanced online translator web application with robust features designed to enhance user experience and accessibility. The application supports multiple languages, voice input, and speech synthesis, catering to a diverse user base.

## WORK HISTORY

### Octiflex

August 2023 - Present

Work Experience | Android Java Developer

#### Responsibilities

- Developed and managed scalable Android applications using Java, optimizing for best performance, quality, and responsiveness.
- Collaborated with cross-functional teams, including product managers, designers, and backend developers, to define, design, and deploy new features.
- Integrated third-party APIs and services to extend application capabilities and improve user experience.
- Implemented security measures to protect user data and ensure the application complies with security standards and best practices.
- Managed the build process using Gradle and oversaw the deployment of applications to the Google Play Store, ensuring compliance with store guidelines.

### High Court of Justice

January 2023-March 2023

Work Experience | Web Developer

#### Responsibilities

- Assisted in the development of web pages using HTML, CSS, and JavaScript, working closely with two other team members and senior developers to ensure high-quality code and adherence to project goals.
- Contributed to the design and development of a responsive e-commerce website, which resulted in a 15% increase in mobile traffic during the internship.
- Gained hands-on experience with version control systems (e.g., Git) and collaborated effectively in a small team, enhancing code integration and project coordination.

- Shadowed senior designers and developers, gaining valuable insights into industry best practices and modern development workflows, leading to a deeper understanding of web development processes.

## **TOOLS**

VsCode, WordPress, Figma, Jira, Microsoft SQL Server, Tableau, GitHub, Firebase, Trello, Junit, Git, Jenkins, Google Cloud, Azure DevOps, Weka.
